

GHC-SCW Tokay Clinic Lab Collection Services

GHC-SCW will provide lab collection services (blood drawing and urine samples) at the temporary Tokay Blvd clinic.

Tokay Lab Collection Services

Available: 7:30 AM to 1:00 PM, Monday through Friday

Please note that we have limited medical resources at this location. The temporary lab is not able to accommodate children less than 6 years old, patients with vascular access devices (i.e. ports) or patients who need physical assistance. We suggest our Hatchery Hill or Capitol clinic location for these members.
